

Dino-Lite KM-01 Focus Control

The KM-01 can be used to control the Dino-Lite focus wheel without touching the device. This is especially useful when the Dino-Lite needs to be isolated during use. The touch controls on the durable KM-01 control box provide instant response, but the KM-01 can also be controlled with the DinoCapture 2.0 software. The KM-01 can be mounted on the MS35B/MS36B Dino-Lite stands, or on 3rd party stands with a 10mm diameter pole.

Model	KM-01 Focus Control
Unit weight	KM-01: 340(g) Control Box: 110(g)
Unit dimensions	KM-01: 77.14mm (L), 65.55mm (W), 98mm (H) Control Box: 100mm (L), 100mm (W), 25mm (H)
