

MODE360° JUMBO IS A COMPACT STUDIO CREATED TO PHOTOGRAPH PRODUCTS (PACKSHOTS) AND 360° ANIMATIONS.

Machine's concept is based on:

- camera
- well lit LED chamber and rotation platform
- the installation of certified Easy Photo on your personal pc

The preparations are automated and easy to use thanks to the intuitive interface (MODE Easy Photo). The function that enables you to delete the background helps you create a high quality packshot in just a minute.

The chamber contains 7 independent high quality LED lights (Colour Temperature 6500 K – daylight).

MODE360° Jumbo is a professional tool for creating presentations of products in 360° and 3D, targeted at clients in advertng and photography as well as manufacturers, shop owners with websites, online auctions.

ELEMENTS OF MODE360° JUMBO::

1. 360° rotating platform 90 cm in diameter
2. 3D arm for spherical images
3. Adjustable camera holder (zoom in, zoom out)
4. Adjustable rail for 3D arm (up and down)
5. Shadow less chamber well lit with LED lights (6500K)
6. Sliding doors

BASIC SET CONTAINS:

- MODE360° Jumbo
- Software (MODE Easy Photo 2.1, 3DRT Flexi)
- Cables (AC, USB)
- Calibration laser (should be used in situations where the rotating platform becomes out of sync, and the animation "stutters")

Camera is not included.

SOFTWARE

The software bundle allows you to do the following:

- **MODE Easy Photo 2.1**
managing the spotlights situated in different areas of the machine; control of the rotating platform; photo capture and control the Canon EOS parameters, along with a live preview image; photo editing; removing and replacing background; adding descriptions as well as a watermark.
- **3D Rotate Tool Flexi**
presentations can be saved as either FLASH, HTML5 and GIF files (it allows rotating the object in any direction).

TECHNICAL SPECIFICATIONS

Model:	FA90
Dimensions:	104×123×114 cm
